

NAME:

Project 1: Drawings with Turtle (Rubric)

	Meeting/exceeding expectations (full points)	Arriving at expectations (partial points)	Not meeting Expectations (Low or no points)
Programs (2 pts)	All programs are correct (1 pt)	All programs run, some programs are correct (.5 pt)	Program(s) don't run or fewer than half of programs are correct
	Programs are logical and organized (.5 pt)	Programs are logical or organized (.3 pt)	Programs are neither logical nor organized
	Clear headers and in-line comments (.5 pt)	Either clear headers or good in-line comments (.3 pt)	All comments are lacking clarity
Demo (3 pts)	Answers all questions thoroughly, clearly understands their program(s) (1 pt)	Answers most questions thoroughly but required prompting (.75 pt)	Can not explain all or part of the program(s)
	Responds to follow-up questions with accurate and clear answers (1 pt)	Responds to follow-up questions but cannot carry out a conversation (.5 pt)	Cannot demonstrate understanding
	Student identified what their biggest challenge was and how they overcame it. (1 pt)	Student identified areas for improvement but lacked specificity. (.5 pt)	Reflection lacked consideration.

Answers/notes

1. How did you fill in the bodies of the shape functions? *what python/turtle functions did you use? what variables?*
2. What additional functions did you define? *what are their names? parameters? what use? how many times?*
3. What variables did you define? *names? values? purposes? re-use? re-assign?*
4. What will your drawing show when it is run? *what is the main subject? other details should I look out for?*
